

# LUXv2™

Easily Store & Play All Your Media from A Single Box

Your Movies, Music,  
Photos, & More -  
Just One Click Away

- Archive\* and browse Blu-ray and DVD movies by cover art
- Stores up to 2310 DVDs or 560 Blu-rays - storage is expandable at any time
- Store and play music CDs on demand
- Watch and record your favorite TV shows easily\*\*
- Create and view animated slideshows
- Stream Netflix and other Internet video sources
- Finely-brushed aluminum face plate for a sleek appearance
- Includes rack ears for easy rack-mounting
- Easily expand into a multiroom AV setup by adding VidaBox media extenders

LUXv2™ is the perfect media center for families with growing media collections. Start with its basic built-in storage, then expand anytime to archive thousands of DVDs or hundreds of Blu-rays!

The system's simple, intuitive on-screen interface allows anyone to browse by cover art, and pick any movie or music album for on-demand playback! Experience your movies in crystal-clear, high definition 1080p, with up to 7.1 surround sound!

Great performance doesn't mean sacrificing beautiful aesthetics: its fine, hairline brushed aluminum finish & chrome styled feet allows LUXv2 to blend seamlessly into any setup, fitting perfectly with your table top or rack equipment.
