

RackServerV2™

The Server Your Collection Needs – with the Convenience Your Family Wants

DROP-N-RIP™
EASY 1-STEP 

Includes Drop-n-Rip™
Feature for Simple,
Easy Disc Archiving*

- Easily archive* Blu-rays, DVDs, & CDs with Drop-n-Rip™
- DualRip™ music CDs into two separate formats to enjoy lossless quality and universal portability
- Cover art and rich metadata are tagged with every archived title
- True RAID protection available with 24/7 storage monitoring
- Expandable storage for up to: 3465 DVDs / 840 BDs onboard, or 7920 DVDs / 1920 BDs with RackServerV2+Plus expansion
- Supports streaming to 10 or more extenders simultaneously
- Works with NuVo® & Russound® for multiroom audio distribution, as well as Sonos®, SqueezeBox®, & other networked audio players
- Built-in remote management for ultra-convenient monitoring
- Rack-mount design perfectly matches with RackClientV3™ and other AV rack equipment

Storing your family's entire movie and music collection has never been easier! With RackServerV2's Drop-n-Rip™ feature, simply:

- Open the disc tray
- Drop the disc in
- Close the tray

...and the disc will automatically be stored, complete with cover art & metadata! Add VidaBox Extenders to your HDTVs to browse your collection right on the TV interface for on-demand playback!

Growing your collection over time? No problem! You can seamlessly expand the RackServerV2 to store thousands of Blu-rays & DVDs!
