VidaBox LLC Debuts New "Premium" & "Limited Edition" Media Center Series

GARDEN CITY, NY – August 24 - VidaBox, a systems integrator, announced today the debut of two new high-performance media center lines called "Premium" and "Limited Edition."

"The new Premium and Limited Edition series were created to satisfy the demand for high performance media centers," says Steven Cheung, a founder of VidaBox. "Some of our performance-centric customers have asked for more power, more RAM, and more processing capability in their media centers, but still wanted quietness, data protection, stability, and ease-of-connectivity. The new Premium and Limited Edition series are the perfect synthesis of these qualities - no other media center systems have as much power and storage standard."

On the ROOMMATE™, the Premium and Limited Edition lines will feature 2GB of RAM, with a Core Duo T2400/T2600 CPU and 500GB/750GB of storage, respectively.

On the SLIM™, LUX™, and MAX™ models, the Premium line sports AMD's dual core 4200+ CPU, 2GB of RAM, and upgraded VidaSafe™ protected storage of 1TB (1,000GB) for the SLIM™ model and 1.5TB (1,500TB) for the LUX™ and MAX™ models. The Limited Edition line sports AMD's dual core 4600+ processor, 4GB of RAM, and upgraded VidaSafe™ protected storage of 1.5TB (1,500GB) for the SLIM™ model and 2.0TB (2,000TB) for the LUX™ and MAX™ models. Detailed specifications on the new VidaBox™ Premium and Limited Edition lines can be found on the company website at <http://www.vidabox.com>
