PRESS RELEASE

EMBARGO UNTIL: August 11th, 2010

Contact: Steven W. Cheung, 516-730-7500 x4201

VidaBox RackClientV3™ Extender Offers Multi-Zone Streaming of Blu-ray, HDMI1.3, & Future 3D Support

Garden City Park, NY – August 11th – VidaBox, LLC, the leading manufacturer of media server and control systems, is launching the new RackClientV3™ – a high-performance Blu-ray media extender. Compatible with any VidaBox media center or server, it streams movies, music, photos, videos, & other online digital content over a single CAT cable, & plays it back in full, lossless 1080p HD on any TV or projector, complete with 7.1 surround sound via optional HDMI1.3 support.

“RackClientV3 is a great choice for any integrator looking for a multiroom AV distribution solution,” states Steven Cheung, President of VidaBox, LLC. “Complete with options for Blu-ray, HDMI1.3, & future 3D support, dealers and their clients never have to worry about replacing equipment to enjoy and keep up with the latest home theatre technologies, since our systems are fully upgradable at any time.”

Each of these 2U extenders support (1) unique AV stream, and multiple RackClientV3™ units can be stacked together to provide up to (10) or more fully independent feeds in a single installation. Media streams can be from content stored on a server, or play back from a disc. VidaBox extenders can also archive unencrypted discs back onto the main server.

“Best of all – the RackClientV3 will be fully compatible with our new iPad® controls through our new vAutomation 2.0 platform, debuting at the CEDIA Expo,” continues Cheung. “No other media server manufacturer provides such a complete line of comprehensive offerings. This makes VidaBox an excellent choice for integrators seeking a total AV distribution and control solution for both disc-based and streaming internet content.”

The RackClientV3™ is shipping and available now for all VidaBox dealers. For more details and specifications on the RackClientV3™, media centers, servers, extenders, and other VidaBox digital entertainment and control solutions, please visit the company website at <http://www.vidabox.com>, call +1-516-730-7500, or visit them at the upcoming CEDIA Expo in at booth 3670.
