

PRE-INSTALLED KARAOKE

INSTALLATION INSTRUCTIONS:

1. After the **VidaBox™** is installed & configured, turn it on. Once everything is loaded, close out of Media Center by pressing **Alt+F4** on the keyboard, or by using the remote, as shown below.

1. Press the **Green Start/Media Button**.

3. **Shut Down** selected, click **OK**

2. Find the **Shut Down** icon, next to the current time

4. Select the **Close Media Center** icon, click **OK**

2. Unpack the Microphone and Mixer, and connect the audio cable between the audio mixer and **VidaBox™**, as shown below.

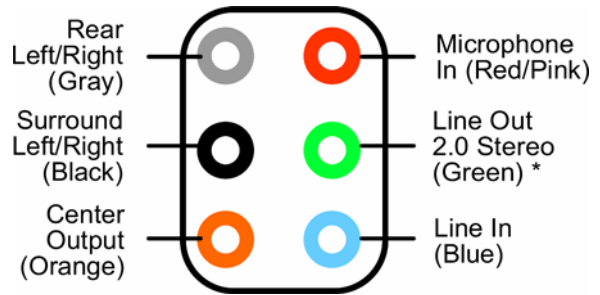

3. When the 3.5mm output is plugged into the rear **Mic In (Red/Pink)** jack, the audio driver **may pop up**, prompting you to select which device was connected, as shown on the right. **If it appears, select Mic In.**

4. The microphone set is now! Test it out by turning it on, adjusting the mixer volume, and speaking a few words. Make sure your voice is coming out of the speakers. Enjoy!

Audio/Microphone In

If you are planning to use the digital SPDIF audio-out from the **VidaBox™** to the receiver, you must also plug the **Line Out 2.0 stereo (Green)** output into your receiver. The microphone mixer for karaoke will only work via an analog connection. Select the analog connection on your receiver when using karaoke.

USAGE INSTRUCTIONS:

1. Make sure your microphone set is connected properly, as detailed above, and turn on the mixer by hitting the **Power Switch**.
2. In the Media Center console, select **My Videos**.
3. Select the folder called **Karaoke** by highlighting it and hitting **OK** on the remote.
4. Refer to your included song book and select a song that you or a guest wants to sing. **Note the album and track number of that song.**
5. Using the arrow keys on your remote, select the album's folder, and then the song track you or your guest wishes to sing. Enjoy!
