

Installation Instructions

Desktop Bumper Add-on Kit : FTS Mount

This kit includes:

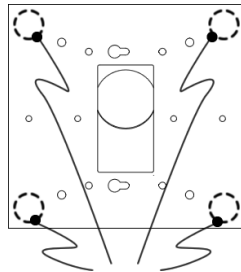

- (1) Alcohol Wipe
- (4) Permanent Desktop Bumpers for Fixed Tilt Stand

1. Before installation, be sure to wash hands to ensure they are clean and free of dirt, grime, or other debris to ensure a seamless setup.
2. Using the alcohol wipe, clean the bottom surface of the Fixed Tilt Stand (FTS), where we will be adhering bumpers. Be sure the surface is free of dirt, grime, or other debris to ensure a permanent installation.

Note: Take the time & effort to properly clean the surface. Any contaminants will compromise the bumpers' adhesion strength. Additional cleaning may be required above and beyond using the supplied alcohol wipe to ensure the surface is truly clean.

3. Apply the (4) bumpers onto the bottom of the desktop FTS stand. (Same surfaces as step 2) Generally, the bumpers are placed in the corners to ensure maximum stability.
4. Be sure this position is satisfactory BEFORE proceeding further.
WARNING: ONCE THE ADHESIVE IS APPLIED, it will be DIFFICULT TO REMOVE.
5. Once you're satisfied with the placement of the bumpers, **PRESS AS HARD AS POSSIBLE.** This will ensure that the bumper is securely adhered to the bottom of the FTS stand.
6. Setup is now complete!
